

RED BLUFF BASALT COLUMN

Description: These rusty colored columns are the most widely used of all our basalt. Red Bluff columns are perfect for projects requiring the manageable weight of a smaller column but the appearance of a larger column.

Color: Tans, rusty browns, and swirling reds make up the coloration of the exterior crust, while the interior is a dark, charcoal grey and can be polished to a black luster.

Diameter: 10" to 18"

Height: 2' up to 12'

Weight: ~150 – 200 lbs per linear foot
