

GRAND COULEE BASALT LIGHT

SKU: B-L-GC-3 and B-L-GC-4

Description: Grand Coulee Basalt Columns are quarried in Washington State. These column lights are the classic brown rust color associated with basalt from Washington State. Ideal for use as larger, statement-making landscape lights for both commercial and residential projects.

Color: Tans, rusty browns, and reds make up the coloration of the exterior crust, while the interior is a dark, charcoal grey and is polished to a black luster.

Diameter: 18" to 24"

Height: Available in 36" and 48" heights. Custom heights available as well.

Weight: ~250 – 500 lbs per linear foot.
